## EDUCATION

### B.Tech

#### National Institute of Technology Silchar

04/2018 - 05/2022

Silchar, 7.71/10.0 CPGA

Electronics and Instrumentation Engineering

- B.Tech

### Class 12

#### kendriya vidyalaya khanapara

04/2017

Guwahat, 74.4%

## WORK EXPERIENCE

### Optum UHG

#### Associate software engineer ll

09/2022 - Present

Hyderabad TG

Achievements/Tasks

- Developed & Updated .NET applications using C#, ASP.NET, and Web Services.
- Designed user interfaces with HTML, JavaScript and CSS.
- Created stored procedures and other database objects in MS SQL Server.
- Developed React pages/component using Redux state management and Custom packages
- Integrating React with .NET web API
- Write unit test cases, check code coverage should be 100%
- Created Pipeline for Automate Rollback SQL Query

### Machine Learning Internship

#### National Institute of Technology, Silchar

06/2021 - 07/2021

Silchar

make a optimized machine learning model for OCR

- Working on optical character recognition making a **model train** the model using **datasets** after training and do optimization use in real time environment to detect mathematical expression,hand written numbers using **CNN ,MSER,tensorflow**
- Skill used : **python,tensorflow,OpenCv**

## SKILLS

c++

c#

HTML/CSS

React.js

Machine learning

Python

NumPy

Pandas

MySQL

Microsoft.Net

javascript

MongoDb

## PERSONAL PROJECTS

### Chat Messenger (Web application) [🔗](#)

- Developed a real-time chat messaging application using **React** for the front end, **Socket.io** for real-time communication, **Express.js** for server-side handling, and **MongoDB** for data storage. Implemented features to facilitate multiple-user conversations, real-time notifications, live user tracking, and seamless storage of chat records in the database.
- Skills used - **React Js , Socket.io , Express.js ,MongoDB**

### Project Name

### Text Translation (React js) [🔗](#)

- This is a text translation application where we can convert any English text to hindi ,italy any other language
- Skill use: **React js ,Css ,Rest API**

## COMPETITIVE CODING SKILL

### Hacker Earth [🔗](#)

**Problem Solving :- 6 star , cpp :- 5 star, mySQL :- 5 star**

### leetcode [🔗](#)

**Question solved :200+**

### Code chef : 3 star [🔗](#)

**Problems Solved, competitive coding contest**

### geeksforgeeks [🔗](#)

**Question -400+ ,DSA course**

### Google kickstart 2021

[Kickstart Round D - 6466 , Kickstart Round E - 3520](#)
